**WE BURN 125 HOUSES EVERY MONTH.**  
 In a statement by the Wisconsin Industrial  
 Commission the news is told of 73 deaths and 147  
 accidents caused by Wisconsin fires in 1919. There  
 were 2,549 fires and most of them due to carelessness.  
 We burn in the state 125 homes a month  
 and build a few more than that number. All of  
 which is interesting and apropos of the crusade  
 constantly being made by the commission to re-  
 duce the number of fires by rousing the people to  
 the necessity of greater care. No one can be too  
 safe on the fire question—no chances ever should  
 be taken. Millions and millions of dollars worth  
 of property have been destroyed in our forests by  
 the carelessness of hunters and others with  
 matches or in smoking.  
 It is a step forward that the General Federation  
 of Women's clubs has taken up the question  
 of fire prevention and will make a study of the  
 subject and aid in the formation of habits of care-  
 fulness.  
 In Janesville we have fires due to carelessness,  
 too. That some are not more serious is largely  
 owing to the high efficiency of the fire depart-  
 ment. But that by no means excuses the public  
 from keeping up a vigilant precaution.

**INDUSTRIAL FUTURE OF JANESVILLE.**  
 The entrance of the Morgan interests into the  
 affairs of the General Motors company is an as-  
 surance of the stability of the future. The house  
 of Morgan is allied with solid finances and sound  
 institutions. It is a certificate of solidity. Janes-  
 ville will be a large participant in the benefits.  
 The Samsen plant is being pushed rapidly to the  
 completion of all the units in the large scheme  
 which will make it the foremost tractor manufac-  
 turing plant in the country. It will also mean  
 further expansion in the implement business.  
 With the let-up in the stringency in the labor  
 market in the last few weeks there will be less  
 difficulty in securing the number of people needed  
 to carry out the work.  
 That means of course more housing and room-  
 ing facilities and we are meeting that part of the  
 problem but slowly. Janesville has a number of  
 citizens who have gone patriotically into the  
 building of houses and they deserve every aid  
 and assistance in their work.  
 The sceptics who have stood back with a half-  
 hope that the industrial growth of Janesville was  
 only for the moment and would not be lasting,  
 are becoming convinced of their error and are  
 getting on board the band wagon with the rest of  
 the people who have never wavered in their faith.

**MAKING A NEW SORT OF PLATFORM.**  
 It appears that a new method of making a  
 platform will be taken at the republican national  
 convention. Heretofore there has been one way.  
 The members of a committee on resolutions were  
 appointed and a leader pulled from his pocket a  
 platform framed weeks before by a few political  
 leaders. It might be slightly amended, but it was  
 generally adopted. What was true of the republi-  
 cans was equally true of the democrats. The  
 leading candidate had usually accepted it and  
 passed his approval. Then it was read by the  
 secretary or the chairman in loud, ringing tones.  
 It was passed with a shout. Few knew what it  
 was all about. Later when success had come it  
 was generally more honored in the breach than  
 the observance.

Now a platform is to be made from the written  
 advice of thousands of men and women. The  
 committee has been working for many months.  
 The questions answered and have been assembled  
 and planks covering the votes of a majority have  
 been written. Hearings will be held by the com-  
 mittee also, covering a whole day of the conven-  
 tion. The usual cry that the platform ignores  
 this or dodges that cannot be used against the  
 republican platform this year. It should be a  
 document of more than passing importance, and  
 a declaration of principles on many subjects of  
 vital importance rather than a sounding board of  
 sonorous platitudes.

It is to be hoped that some equally broad  
 method will be adopted by the democratic con-  
 vention. So far we have only the information  
 that the president in his capacity of the head of  
 his party, will write the platform himself or at  
 least it must be submitted to him in the old way  
 as the boss and the dictator of policies. There is  
 a place now for a restatement of things con-  
 structive for the nation, and in the line of pro-  
 gress. The public may look for some of these on  
 a platform made by more than a few minds and  
 the result of months of hard examination.

Delaware has been counted as a southern state.  
 It has defeated the suffrage amendment. In that  
 it has been consistent and followed tradition.  
 Southern states have voted "no" on the ratifica-  
 tion of the amendment with general agreement.  
 Therefore the democratic platform of Virginia  
 which the president seems to think a model, is  
 most inconsistent when it states that: "To the per-  
 sistence of President Wilson, with his personal  
 appeal to individual democratic senators and rep-  
 resentatives, should chiefly be ascribed the adop-  
 tion by congress of the act of submission." Vir-  
 ginia refused to ratify the suffrage amendment.  
 There is a most overwhelming democratic major-  
 ity in the Virginia legislature. Apparently Presi-  
 dent Wilson's personal letters and appeals have  
 not gone very far in Virginia.

Missouri delegates evidently have a high appre-  
 ciation of the value of votes. The farther north  
 one gets in the south, the higher they cost.  
 Possibly the widow's mite was a miter dollar  
 since the night in it has been so badly reduced.

## Revolt of the Consumer

By FREDERICK J. HASKIN.  
 CHICAGO, ILL., JUNE 4.—The Rogers Park  
 Tenants' Protective Society is the latest as well  
 as one of the strongest signs that a Middle  
 Class union is not an entirely impossible organi-  
 zation. It has long been pointed out that only  
 about one and one-half per cent of the population  
 belong to the aristocratic class and about six per  
 cent to the union labor class, but that these two  
 classes because of their strong organization are,  
 even as upper and nether mill stones, grinding  
 between them the huge, inarticulate and unor-  
 ganized ninety per cent known as the middle  
 class, and squeezing every cent from its shabby  
 pockets in a most inconsiderate manner.

This deplorable situation, according to Mr. J.  
 R. Patterson, president of the Rogers Park Ten-  
 ants' Protective society, is largely due to the  
 passivity of the persecuted.

"The people of the middle class," says Mr. Pat-  
 terson, "have had less class consciousness and  
 community spirit than those of any other class.  
 As long as life was fairly easy for them they pre-  
 ferred to be self-centered and detached. Even  
 when profiteering and labor unrest combined to  
 make life far from easy, they were slow to realize  
 that they had any power within their ranks to  
 combat these forces. For one thing their very  
 bulk and diversity of occupations made it hard  
 for them even to see the practicability of or-  
 ganizing. It remained for the rent profiteer to  
 give them one urgent grievance to commonize  
 for this at least, we owe the grasping landlord  
 our thanks."

The Rogers Park Tenants' Protective society  
 did not know that it was going to be so powerful  
 when it started. Two months ago the owner of  
 the Skobelin Apartments in Rogers Park informed  
 the inmates thereof that their rent was going to  
 be raised from \$9 to 100 per cent. The tenants  
 knew that this was an unreasonable demand.  
 They also knew that they could not all find other  
 homes in the short time they were allowed. They  
 were exasperated to the point of action at last,  
 after years of patience. And so this handful of  
 tenants got together first more to try to phan-  
 toize their landlord than to defy him.

But the time had long been ripe for a larger  
 organization evidently, and this first move was all  
 that was needed to start it going. People in the  
 neighborhood got wind of the temerity of these  
 Skobelin tenants who were daring to talk back to  
 their landlord, and came flocking to join their  
 ranks. A small red card suddenly appeared in  
 places bearing a message of hope to the desperate  
 renter.

"RENT RAISED? BOOSTED SKY HIGH?" It  
 inquired in sympathetic capitals. "DON'T BE A  
 JELLY BEAN," it admonished. "Come to the meet-  
 ing of the Rogers Park Tenants' Protective so-  
 ciety in the assembly room of the Eugene Field  
 school." . . .

The hall was crowded at the first meeting and  
 has been crowded every Thursday evening since.  
 The society has an active membership of two  
 thousand. It has a local office with an arbitration  
 board of three, one representative for the society,  
 one for the Cook County Real Estate Board, and  
 one neutral member. All members of the society  
 can come here to receive free legal advice from  
 the society's attorneys and to arbitrate with un-  
 reasonable landlords. When the landlords refuse  
 to be reasoned with, the society takes the case in-  
 to court for the tenant. It has already won the  
 first three of the many cases which are now in  
 court.

"Our strongest weapon is publicity," says Mr.  
 Patterson. "You see, even a landlord has friends,  
 and although he is willing to profiteer comfortably  
 in private life, he shrinks from the pitiless glare of  
 publicity. His wife, who usually lives in the  
 neighborhood, shrinks from it even more than he.  
 Needless to say the wife of a profiteer is a most  
 popular socially. We do not hesitate to mention  
 names in our campaign or to ostracize offenders.  
 The women of our organization are especially  
 useful in this. They do battle fiercely for what  
 they consider to be a holy cause. They feel that  
 they are fighting for the preservation of the home,  
 for a wholesome community in which to bring up  
 their children, and they are living up nobly to the  
 well-known reputation of the female of the species."

"Besides the social element in our publicity  
 campaign we are using the newspapers and the  
 movies. The papers are glad to be used by print-  
 ing instances of the unfairness of some landlords.  
 For instance there was the case of the young  
 couple whose lease said that there should be only  
 two occupants in their apartment. The sick in-  
 opportunist brought a third occupant before the  
 lease had expired, whereupon the husband and  
 wife immediately broke the lease, evicted the  
 unscrupulous parents and their presumptuous child so  
 that he could rent their home to new tenants at a  
 greatly advanced rate. Another case which gave  
 much unfavorable publicity to a landlord was one  
 in which the parents of a soldier just returned  
 from France are evicted because for some reason  
 were allowing their son to live in their apartment  
 contrary to the said landlord's wishes."

"The moving picture theatres are also helping  
 out our campaign. Every evening between films  
 the Rogers Park tenants are reminded of bitter  
 reality by such terse remarks flashed upon the  
 screen. 'One man said he was afraid the owner  
 would find out if he joined the Tenants' Pro-  
 tective society—good thing our boys didn't feel  
 that way about the Kaiser, or 'When human  
 rights clash with property rights human rights  
 should prevail.' (Roosevelt, Joe the Rogers  
 Park Protective society story. Many a landlord  
 in our neighborhood has lost his taste for the  
 movies."

The Rogers Park Protective society is not down  
 on all landlords of course, only the bad ones. In  
 fact it has the support of all reputable real estate  
 men, who are far enough from being usurers to  
 see that the rents will not in the neighborhood  
 time, by driving out homesteaders and filling the  
 suburb with rooming houses and undesirable ten-  
 ants. The society admits that a rise of 25 or 30  
 per cent in rents is only fair, but it objects to  
 more than that, and although there is no law in  
 Illinois limiting the rent profiteer, the public opinion  
 is so strong that the rent profiteering case taken to  
 court can be made to drag along for a year or  
 more, while the tenant lives in the apartment  
 without paying any rent at all, combine to give  
 the landlord pause.

## JUST FOLKS

DECISION.  
 There's no limit placed on you  
 Save what's right and wrong to do;  
 No one here has power to stop  
 That you may not work or play;  
 None may order you to stop,  
 None may keep you from the top;  
 Life will cheerfully stand up  
 All that you are pleased to earn.

You are master of your strength  
 And your fortune's breadth and length;  
 You decide which road you'll take;  
 How much money you will make;  
 You determine when you're hit  
 Whether you'll shrug or quit;  
 Here on earth you stand alone  
 Making your decisions known.

All your whole life's story through  
 Centers on the thing that's you;  
 Swayed perhaps at times you are  
 By life's currents carried far;  
 Remained soverely now and then,  
 Striving with your fellow men;  
 But when all is said and done,  
 You have lost or you have won.

How much money do you need?  
 What shall be your golden creed?  
 How high do you care to climb?  
 How shall you divide your time?  
 How much will you do and dare  
 For the crown you hope to wear?  
 These life asks, and it is true  
 None can answer them but you.

You alone have power to say,  
 In your hours of work and play,  
 Pure of heart and clean of hand,  
 Rather than to stain your soul  
 For some temporary gain,  
 In this worldly place you fill,  
 You are master of your will.

## ON THE SPUR OF THE MOMENT

A reader of the New York "Tribune" writes  
 that paper that he doesn't know what it is to  
 be intoxicated, as he never drinks liquor for  
 pleasure. He certainly doesn't if he drinks the  
 liquor they are selling now.

There is no such word as "preventative." That  
 is why we always use it in this column. We  
 hope this adequately answers the correspondent  
 who asked us.

They must expect a good deal of sickness in  
 Cincinnati. A drug dealer has bought a  
 million gallons of whiskey for medicinal purposes.

Now that the peach crop has been killed for  
 the third time this spring, it will probably be  
 one of our most successful peach seasons in  
 many years.

There were fifty millionaires on the Maure-  
 taria during a recent trip. Probably, also, there  
 were some interesting people.

But we'll bet the fair overall maidens will not  
 wear overalls when they go in bathing this sum-  
 mer.

## Who's Who Today

**SENATOR KNOX.**  
 When Senator Penrose of Pennsylvania an-  
 nounced himself as in favor of Senator Philan-  
 der C. Knox of the same state for the republican  
 presidential nomination, progressive republicans in  
 the assembly room of the Eugene Field school,  
 discovered that in opposition to the peace treaty  
 and league of nations they had elected Knox as  
 Pennsylvania's conservative representative in the  
 upper house.

Senator Knox is a "bitter  
 and" opponent of the treaty,  
 and is the author of the re-  
 torated resolution to restore  
 peace with Germany. Pen-  
 rose, probably is in accord  
 with him on the peace ques-  
 tion. The nomination of Knox  
 at Chicago would be equiva-  
 lent to an announcement by  
 the republican party that it  
 was opposed to any sort of a league of nations.

The forthcoming republican convention is  
 not the first to hear Knox's name proposed for  
 presidential honors. He received sixty-eight  
 votes in the convention of 1903, and a batch in  
 1916, although not then a candidate.  
 Philander Chase Knox was born at Browns-  
 ville, Pa., May 5, 1853; was graduated in 1872  
 from Mount Union college, Ohio; admitted to  
 the bar in 1875, and was assistant United States  
 district attorney in the western Pennsylvania  
 district in 1876 and 1877. He was attorney gen-  
 eral in the cabinets of Presidents McKinley and  
 Roosevelt from 1901 to 1904. He was appointed  
 United States senator in June, 1904, to fill an  
 unexpired term; was elected to the senate in  
 1906; resigned in 1909 to become secretary of  
 state in the cabinet until 1913,  
 and was elected to the senate in 1916.

## LOOKING BACKWARD

**FORTY YEARS AGO**  
 June 4, 1880.—A trace of Maggie Emerson,  
 the girl who was burned to death in the Haystack  
 fire, was found this afternoon when workmen, digging on

 covered some bones of the foot. The rest of the  
 skeleton was found in the afternoon and it is hoped to  
 have it done soon.

## Enormous Sums for Campaign Expenses Is General Prediction

By DAVID LAWRENCE  
 (Copyright 1920 by Janesville Gazette.)  
 Washington, D. C., June 4.—Twenty  
 five million dollars is the estimate  
 of the amount of money that prob-  
 ably will be spent by all political par-  
 ties in order to elect the next presi-  
 dent of the United States.  
 This figure—considered an under-  
 estimate at that—embraces every  
 line inasmuch as too much publicity  
 has already been given the financial  
 efforts of the various republican as-  
 pirants for the presidential hon-  
 or. But it is hardly likely that the  
 democrats who are in possession of  
 another investigation branch of the  
 government would let the matter rest  
 there. If Attorney General Palmer  
 is not the democratic nominee or if  
 he resigns to make the campaign and  
 another Attorney General is appointed,  
 the chances are that the demo-  
 crats will do a little investigating  
 too.

**Can't Get It.**  
 But throughout the union in the  
 states it is fully expected that many  
 millions of dollars will be spent in  
 the race to get it, at the  
 elections. It is making the govern-  
 ment for state officers that money is spent  
 for the top of the national ticket and  
 for congressional candidates.  
 The real is that the present in-  
 vestigation of expenditures in the  
 primary campaign is making the  
 seasoned financiers of political cam-  
 paigns smile. A new record is being  
 set, not only in the amount of the  
 big sums that will be spent in these  
 identical states and perhaps for one  
 of the identical candidates, but  
 once the two conventions have nomi-  
 nated their men.

**Lavish With Money.**  
 Preparations are being made for  
 the most lavish expenditure in the  
 history of American political cam-  
 paigns. The investigation thus far  
 shows that large sums of money are  
 spent for publicity and advertis-  
 ing. That money is being put in  
 the hands of party workers.  
 Some states have laws which limit  
 the expenditures in state campaigns.  
 But the luxury of the more populous  
 states where the big electoral votes  
 come from enables the politician to  
 lay his plans so that he does not  
 come under the jurisdiction of the  
 federal government.

**Some Intervention Likely.**  
 But if anybody supposes that all  
 this going on will be without some  
 special intervention such as  
 came in the primary campaigns, he

 125,000 soldiers have taken advan-  
 tage of the opportunity. Regardless  
 of the length of time a man's insur-  
 ance has lapsed or has been dis-  
 charged from the service, the insur-  
 ance may be reinstated any time  
 before January 1, 1922 upon applica-

 of Europe, the reigning families of  
 Germany and many of the Euro-

 the world.

 which financial settlements are made,  
 in regard to contracts actually de-  
 livered.

**Q. Where was Limburger cheese  
 first made?** N. C. A.  
 A. This is a soft cheese made in  
 the Belgian province of Limburg, and  
 is named after the district which has  
 developed a peculiar, and to many  
 people, unpleasant odor.

**Q. How did the name "Gob" come  
 into use?** H. M.  
 A. The appellation "Gob" is of  
 Chinese derivation from the Chinese  
 word meaning sailor. The word  
 came into use when the fleet was in  
 the Far East.

**Q. When and where was whiskey  
 first made?** I. M. C.  
 A. Distilling liquors is  
 first mentioned by Albulcassus, an  
 Arabian physician who lived in the  
 tenth century. Whiskey is a potat-  
 o distilled from certain grains,  
 probably originated in Ireland, and  
 its Celtic name was usquebaugh  
 (water of life), afterwards contracted  
 to uisge beatha and then to whisky.  
 It was known as usquebaugh in  
 the seventeenth and eighteenth  
 centuries both in Ireland and Scot-  
 land.

 VENTILATING  
 PORCH SHADES**  
 To get real, continuous, every-day, all summer long  
 pleasure from your porch, it must be protected from  
 the sun. This is evident to all of us—but simply protection  
 from the sun does not make your porch habitable—far  
 from it. You must have ventilation. The hot air must  
 be removed from the top of the porch.  
 THE NEW PATENTED VUDOR VENTILATING  
 SHADE permits the hot air to escape from the top of  
 the porch through a wide open Ventilator, woven in the  
 shade itself at the extreme top, where the sun cannot  
 shine in upon you. This Vudor Woven-in-the-Shade Ven-  
 tilator automatically clears the porch of impure hot air  
 and permits a continuous, gentle circulation of air with-  
 out drafts.  
 THE NEW VUDOR SELF-HANGING DEVICE enables  
 you to hang a shade in five minutes—not a screw used.  
 The old way of attaching a shade to the porch with  
 screws took twenty minutes or more. With the new Self-  
 Hanging way, you can unhook the shade in the Fall—if  
 you wish—and rehang it in the Spring in less than two  
 minutes and double the life of the shade.

Let us demonstrate the new Vudor for you. Second Floor.

BY ELIZABETH THOMPSON  
Letters may be Addressed to Mrs. Thompson, in Care of the Gazette

A girl of 14 has not had enough experience to use discretion or to choose her friends wisely. If you spent two or three years longer enjoying your girl friends, reading and studying you will be more interesting when you are older and will not want for friends.

Girls! Make beauty lotion for  
a few cents—Try It!

Dear Mrs. Thompson: I am troubled with blackheads and little pimples. Will you please print a remedy?

To cure blackheads make an ointment of one ounce of soap liniment and one ounce of ether. Rub thoroughly with hot water, using a complexion or night scrub. Then apply the ointment with other soft brush. After wiping dry, rub the mixture on each of the spots and let it remain on over night. Wash off in the morning with hot water. Repeat until the spots have disappeared. Then twice a week wash the face with this mixture, removing the fluid at once with a soft cloth.

If there are large pores, wipe over each with a little alcohol.

For pimples make a mixture of two grains of salicylic naphthol, 20 grains of sulphur precipitate and 20 grains of potato soap. Rub over the pimples at night.

This may be used at the same time as the blackhead mixture.

Dear Mrs. Thompson: Would it be all right to accept a little pocket kodak from a very good gentleman friend?

DOROTHY.

LEMON

## FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well. Add two or three pint of the best truckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will sell the three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms, and hands each day. See how black spots and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates.

With the exception perhaps of the smart mannish tailored blouse or sports wear, the woman who makes any pretense to modish dressing will buy the over-b blouse in one of its many forms. The paragon of these new blouses and no doubt the most chic and attractive garments of the Parisian wardrobe. They are fast taking the same high place in the American wardrobe.

The new blouse styles in over-blouses extends to a low waistline and is usually belted. Often, however, the blouse material comes down to excessive length, hanging many inches in soft folds, thus preventing a stiff or awkward line at the waist curves. Many of these new blouses, especially those of the more dressy type, suggest a complete costume adding a full skirt of the same material. Have you not heard of the "affet" in far ahead of any other fabric as a choice for these smart blouses, and tricolette comes second with georgette a close third. The smartest blouse of tricolette, white with rose trimmings.

This blouse is a slip-over model and is somewhat on the midgy size. The small pocket is of a rose velvet, an unusual trimmings in turn with a white embroidery in a simple design. Ball buttons on the vestee, sides and sleeves form the other bit of trimmings. Such a blouse would look smart in white silk and would be unusual in effect with a brilliant, colorful sports skirt of some of the new silks if the material were not replaced with silk to match the skirt.

# Samson Seconds Play Here While Sammies Are in Chi

By George McManus.

## Nationals Will Take On Rockford Champs in Two-Battle Week-End Series

Though the regular Samson Tractor ball team will be in Chicago over the week-end battling with the Logan Squares—a hard fight it will be—fans here will still be provided with local baseball. The Samson Nationals, officially designated as the second team of the big plant, will cross bats with Osborne's Rockford Colts out at the fair grounds.

The first team has a tough time before it in the Windy city. The Logan Squares are backed by a brilliant season, but with George Dumont, star pitcher of the Sammies, on the mound, and with Walsh, Lathrop and Wooten and the rest of the players, the local boys will show a style of ball that ought to bring home the honors of victory.

### WARNING

Season ticket books for the regular games here of the Samson Tractor ball club will not be good at the games at the fair grounds tomorrow and Sunday between the Samson Nationals and the Rockford Colts.

Rockford Title Holders

The Nationals have been playing some good ball around this part of the country making about an even split. Their opponents for Saturday and Sunday are the Rockford city title holders for the last four years. They are composed of several three-league players. They are strong and going good.

Admission to the local games will be 30 cents. Tomorrow ladies will be admitted free. Game starts at 2 o'clock.

New National Men

Several new faces will be seen in the Nationals lineup. Eidenberg, a pitcher of considerable fame, and Berke, also a slaban, who played in the A. E. F. and on the nine of the A. M. college, Texas, will augment the staff of the Nationals. Expectations are that a good-sized crowd will attend the games for baseball has taken a strong hold on local fans.

## DUMONT WILL STAY

### Will Pitch One of Games Against Logan Square in Chicago

After a conference with Manager Perring last night, George Dumont, star pitcher of the Samson team, announced his intention of remaining in Janesville.

Decision Final

Ever since the visit of Roger Bresnahan, two weeks ago, the fans have been anxiously awaiting this decision and they can all breathe a sigh of relief for George says his choice is final.

When interviewed this morning, George Perring appeared to be a mighty well satisfied man.

"We are all more than pleased to know that Du Mont will be with us," he said. "He will prove a tower of strength to our pitching staff, and with some help we expect to land for our outfield we can give every team a battle."

With Wallish pitching a good game, allowing seven hits and striking out nine, the Teenie Weenies defeated the Lincoln 15 to 5 yesterday.

## Beloit, Scene Of Big State Track Meet

Beloit, June 4.—The biggest track and field meet of collegiate rank ever staged in this city will be held at Hancock field tomorrow afternoon, starting at 2 o'clock, when the annual Wisconsin State Intercollegiate championship is to get under way. Lawrence, Beloit, Ripon and Carroll colleges will be represented, and nearly 400 athletes; the pick of the state, will see action.

With Ripon the ranking favorite, but with both Beloit and Lawrence meaning in the roles of dark horses, the contests will prove a battle. Lawrence is entering 23 athletes. Ripon has nearly as many, while Carroll will bring down 17 or 18 men. Beloit will probably enter 15.

Dope Beloit Strong

Beloit has already counted a win over Carroll here in a dual meet. No other schools that will be here have clashed. Lawrence lost an early season meet at Northfield, Minn., to Carroll by a score of 110 to 20. Ripon has defeated Chicago Y. M. C. A. college 70 to 60, and has taken the normal school. Carroll has fallen to both Beloit and Milwaukee Normal. Beloit has defeated Waterloo Normal and held Northwest of Naperville to the closest score recorded in sectional track annals, getting the small end of a 60 to 57 score at the Illinois city last Saturday.

Northwestern had already beaten Chicago Y. M. C. A. college by a big margin. The way that dope, Beloit has better than an even break to annex the state title here Saturday.

## 300 ATHLETES RACE IN ANN ARBOR MEET

Ann Arbor, Mich., June 4.—More than 300 athletes, carrying the colors of a score of universities of the Midwest and far west, will be seen in action on Perry field here on Friday and Saturday in the western intercollegiate conference championship meet.

The field will be narrowed down in preliminaries on Friday for the finals on Saturday. Sixteen events are on the program. Predictions as to the probable winner of the meet cover no fewer than five of the largest colleges entered. Chicago and Illinois said to be almost evenly balanced; California, Wisconsin and Michigan seemed to have almost equal chances in the opinion of followers of track and field events. No exaggerated claims were being made by the supporters of any of the five, however, as all seemed to be agreed they will be closely grouped at the finish.

## REGATTA ON CAYUGA INSTEAD OF HUDSON

Ithaca, N. Y., June 4.—The intercollegiate rowing regatta which was to have been held on the Hudson river in Poughkeepsie July 1 will be held on Cayuga lake, near Ithaca, on Saturday, June 19. It was announced here today by Charles E. Freeman, Cornell member of the board of stewards of the Intercollegiate Rowing association.

Ithaca, N. Y.—The intercollegiate rowing regatta will be held June 19 on Cayuga lake instead of the Hudson river July 1.

FIGHTING STOCK

"Investing in an army" is the title of an editorial in the Wall Street Journal.

Now is your chance, gentlemen. Step right up and take a platoon of Colons. Preferred, or Common, or Doubtful. It is bound to yield a generous return.

We agree that a good army is a good thing. So does anyone who has fought one or been in one, but this "investment" stuff gets under the skin.

It is a pleasant sensation (they say) to die for your country, but to be clipped off like a coupon is annoying.

When the next war comes along and the army has been properly "invested" in, we suggest that Wall Street be enlisted. If they are old to fight (remember that old Polk at Chalons with the dust in his moustache, an armful of service stripes and two boys in the line?) if they can't fight, let's find something else for them to do besides editorializing.

"The chair is the ambassadors and ministers of all the American republics meet and are presided over by our Secretary of State in the Pan-American congresses. The American representative has a chair of his own, with the arms of his country carved on its base."
